

THE LIST

LARGEST MANUFACTURING COMPANIES

Ranked by employees in the greater San Fernando Valley in 2010

EXECUTIVE SUMMARY

This year's Manufacturing List includes 45 companies, a major increase from last year's 25 rankings. The List now includes aerospace manufacturers, which in previous years had been featured on a separate List. The companies are ranked

by total employees in the greater San Fernando Valley Region and then by total companywide employees where available. The largest company is Northrop Grumman Corporation with 4,300 local employees. Although a variety of industries are

represented here, companies serving the aerospace and aviation sector comprise the largest portion of the List. The oldest is The Boeing Company, originally incorporated on July 15, 1916.
